

## One Series Mercury Flanger

**Product # SA240**

### **Product Description:**

The Mercury Flanger has three intense flanger effect types. Classic mode offers a deep and dramatic effect in the style of the earliest flanger pedals. The Mercury's Thru-Zero (a.k.a. "Tape Flange") dramatically delivers the distinguishable twisting effect that occurs when the dry and modulating signals reach their intersection point. Finally the Shadow Flanger offers a highly resonant yet silky smooth tone, with the jet engine "whoosh" all flange fanatics crave. The Mercury also includes an on-board Delay control to explore that beautiful cosmic space between chorus and flanger.

Out of the box, the Mercury Flanger offers tremendous tonal range, but beneath the hood resides the full power and flexibility of this dynamic stompbox. Every pedal in the One Series line is compatible with the Neuro Mobile App (a free download for iOS and (coming soon) Android). Link the Mercury to the Neuro App and access Source Audio's free library of additional phaser, flanger, and chorus algorithms – each can be downloaded directly to your pedal. The Neuro App also offers an extended set of adjustable parameters including Wet/Dry Mix, Output Level, Tremolo, a Parametric EQ, Lo Retain, Advanced Signal Routing, and more. Plus, every One Series pedal is fully MIDI compatible when coupled with the Neuro Hub (formerly Soundblox Hub), giving you the power to save up to 128 presets.

### **One Series Mercury Flanger Features & Specifications**

- **3 Flanger effect types:** *Thru Zero* - a.k.a "tape flange" / *Classic* - a variable time delay flanger / *Shadow* - a highly resonant but silky smooth dual tap flanger.
- **Stereo Input and Output jacks** - for stereo effects or alternate signal routing.

- **Universal Bypass** — Select either analog buffered or relay based True Bypass.
- **MIDI Capable** — Connect the Mercury to the Neuro HUB and enable its MIDI functionality. Save up to 128 user presets, accessible via MIDI program change messages. Assign Hot Hand and expression control to modulation or any knob parameter. Control modulation speed with MIDI Clock.
- **Neuro Mobile App. (for iOS or Android)** – Connect your mobile device directly to the pedal for access an extended set of adjustable parameters. Save and download customized effects to the pedal and share them with other One Series owners. Connector cable included with pedal.
- **Download Additional Effects** – Every phaser, flanger, and chorus algorithm available from Source Audio can be downloaded for free directly to your Mercury Flanger via the Neuro Mobile App.
- **Expression Control** — Connect the Hot Hand 3 Wireless Effects Controller, the Source Audio Dual Expression Pedal, or the Reflex Universal Expression Controller via the 1/8" Control Input port for external control of modulation or knob parameters.
- **USB port** – connect the Mercury Flanger to Mac or Windows systems for simple firmware updates.
- **Brushed anodized aluminum housing.** Dimensions: L: 4.5 in./11.4cm x W: 2.75 in./7cm x H: 2 in./5.1cm (including knobs).
- **Includes 9v DC power supply** - 300mA / Negative tip / Pedal draws 150mA.
